FEEDING DIRECTIONS

This product can be fed free-choice in lick tanks or open top containers, or added into a mixed ration. Feed up to 4 lbs of this product per head daily. Consumption should be monitored to obtain desired daily intake. Provide a source of clean, fresh water at all times. This product does not contain added salt, so consult a qualified nutritionist to determine if additional sodium or chloride is needed in the ration. Care should be exercised with starved, stressed or debilitated animals when this product is provided free-choice.

“CAUTION: USE AS DIRECTED.”

This product contains added copper. Avoid excessive consumption by sheep and goats. This product contains a source of non-protein nitrogen. Avoid excessive consumption. Manufacturer's feeding instructions should be followed. This product contains condensed extracted glutamic acid fermentation products not exceeding 30% of total formulation. Product contains ingredients that do not stay in suspension. This product must be agitated before being dispensed or fed. The viscosity of this product varies inversely with temperature.
